ALELEGN ABINET

ELECTROMECHANICAL ENGINEER | ASSITANT
LECTURER | MAINTENANCE PLANNER

CERTIFICATES & TRAINING

- HDP — HIGHER DIPLOMA PROGRAM
- ELIP — ENGLISH PROFESSIONAL DEVELOPMENT
- ICT4P — ICT FOR PEACE
- FIVE MILLION ETHIOPIAN CODERS
- FUSE — FUNDAMENTALS OF AI
- BDU ANNUAL WORKSHOP PROJECT CERTIFICATE

ABOUT ME

Electromechanical Engineer, Assistant Lecturer, and Industrial Maintenance Planner with experience in engineering education, industrial maintenance, control systems, and automation.

Currently pursuing an MSc in Electromechanical Engineering at Bahir Dar University, Bahir Dar Institute of Technology. My research focuses on developing a Python-based Intelligent Decision-Support Computerized Maintenance Management System (CMMS) for industrial electromechanical equipment.

My interests include robotics, industrial automation, artificial intelligence, IoT, computer vision, intelligent maintenance, and equipment reliability.

EXPERIENCE

Assistant Lecturer — Electromechanical Engineering
Bahir Dar University — Bahir Dar Institute of Technology
2025 – Present | Bahir Dar, Ethiopia

Teach undergraduate Electromechanical Engineering courses.
Teach and support Engineering Drawing and Control Systems.
Conduct laboratory and practical engineering activities.
Guide students in engineering projects and technical problem-solving.

Connect theoretical concepts with practical engineering applications.

Industrial Maintenance Planner
Top Edible Oil Manufacturing Plant
2026 – Present | Ethiopia

Plan and schedule preventive maintenance activities.
Support maintenance of industrial electromechanical equipment.
Analyze equipment failures and maintenance problems.
Use machine manuals, technical documentation, and maintenance records.
Support maintenance scheduling and equipment history management.
Contribute to equipment reliability and maintenance improvement.

SKILLS & RESEARCH INTERESTS

Engineering: Electromechanical Systems , Engineering Drawing , Control Systems •
Industrial Equipment

Maintenance: Preventive & Corrective Maintenance , Maintenance Planning ,
Troubleshooting • Failure Analysis • CMMS • Reliability

Robotics & Automation: Robotics , Industrial Automation , Embedded Systems , IoT &
Sensors & Actuators

Programming & AI: Python , C/C++ , MATLAB , Machine Learning •,Computer Vision &
OpenCV

Engineering Tools: MATLAB/Simulink • SolidWorks • Proteus • ESP32 • Arduino •
